MONTHLY PERFORMANCE REPORT

01 INVESTMENT PROFILE

INVESTMENT STRATEGY

An actively managed, diversified portfolio spanning defensive asset classes — cash and fixed interest — and growth asset classes such as Australian and global equities, property and infrastructure. The strategic asset allocation is 30% defensive and 70% growth.

INVESTMENT OBJECTIVE

To deliver returns above the CPI + 3% benchmark over rolling seven-year periods, net of investment management fees. Designed for investors with a minimum seven-year timeframe willing to accept higher volatility than more defensive options in return for higher potential performance; the primary concern is return, hence 70% in growth assets.
